

CSO11 is in the improvement programme confirmed from the EA's own list.

The EA's national programme of required water company improvements for 2025-2030 (the WINEP dataset) contains this entry:

Action	Spill Reduction at Matlock - Bakewell Rd (Hooley Town) (SSO)
Action ID	08ST100729
Permit	EPRKB3593RU (CSO11)
Legal basis	Environment Act - statutory (driver EnvAct_IMP4)
Aim	Reduce spills so the overflow does not discharge more than an average of 10 times a year (the 2050 target)
Decision	"Proceed", decided 1 July 2024
Completion due	31 March 2030
Method	"Non-traditional solution types where feasible"

Six other Darley Dale and Two Dales overflows have the same action and date: Darley Bridge, Church Road, Dale Road North, Greenway Lane / Oddford Lane, Darley Bridge Pumping Station and Northwood - Dale Road North. Severn Trent has 33 of these actions on the Derwent in all.

Note: WINEP is the **Water Industry National Environment Programme**. It's the Environment Agency's list of environmental improvements that each water company in England must carry out during a five-year investment period. The current period runs from 2025 to 2030.
